Where your money goes.

Almost 1 in 2 of us will get cancer, but together we can improve those odds.

Every dollar you raise goes towards funding Cancer Council's critical research, prevention programs, cancer information and support services and advocacy initiatives, benefiting communities nationwide.

It takes many hands to take on cancer, but with the help of all of us, we're getting closer to a cancer free future.

Cancer research

Because of research, more people are surviving cancer than ever before. Investment in research has helped increase cancer survival rates from 49% in the 1980s to 70% today. Together, we are unlocking the answers to a cancer free future.

Cancer prevention

Funds raised from Relay for Life are helping to deliver campaigns, education programs and information resources that help detect cancer early and prevent countless cancer cases in Australia each year.

Cancer support

Every day, we support people affected by cancer when they need it most, delivering a wide-range of support services for all people affected by cancer. Your support is ensuring no one has to face cancer alone.

You're on track to help us end cancer!

$25 Helps us provide sun protection advice and resources to kids through our SunSmart Schools Program, reducing their risk of skin cancer.

$50 Can help a cancer nurse on 13 11 20 provide free information and support.

$100 Can fund the collection and processing of DNA samples to help us learn more about how cancer develops.

$500 Provides up to one week of funding for a vacation scholarship for a research student.

$5000 Helps provide the community with information about breast, bowel and cervical cancer screening, helping to save more lives.
